

## APPENDIX A

## ADDITIONAL MISREPRESENTATIONS CONCERNING RESOLUTE'S PUTATIVE IMPACT ON CLIMATE CHANGE

	Date	Author	Description	Statements	Website
1.	6/2017	Amy Moas, Greenpeace USA; Rolf Skar, Greenpeace USA; Daniel Brindis, Greenpeace USA	Appearance at Book Expo Convention in New York, NY	Distributed "Clearcutting Free Speech" report and other misleading materials accusing Resolute of aggravating climate change.	n/a
2.	5/17/2017	Amy Moas, Greenpeace USA	Publication: "Clearcutting Free Speech: How Resolute Forest Products is going to extremes to silence critics of its controversial logging practices"	"[F]orests undisturbed by industrial development are more resilient in the face of climate change . . . than degraded forests. . . . Resolute is actively logging in and/or sourcing from some of the last large intact areas of this managed forest."	Greenpeace USA, Greenpeace Canada, Greenpeace International
3.	7/29/2015	Amy Moas, Greenpeace USA	Website Publication: US pharmacy giant making wrong choice for the Boreal Forest	"[T]he Boreal is the world's largest carbon absorbing ecosystem, purifying the air you breathe and keeping the climate stable. . . . But in Canada, one force is cutting out the heart of the forest: destructive logging. A major player in this forest destruction is Resolute Forest Products . . . ."	Greenpeace International
4.	7/27/2015	Amy Moas,	Website Publication: Why Forests Are	"[T]he health of forests around the world - and with them the health of billions of people - is in jeopardy. The Canadian	Greenpeace USA Greenpeace Canada

	Date	Author	Description	Statements	Website
		Greenpeace USA	Critical For Public Health	Boreal forest, for example, is one of the largest reservoirs of carbon in the world . . . . [b]ut it is under threat from unsustainable logging [by] [o]ne company in particular, Resolute Forest Products . . . .”	
5.	7/21/2015	Amy Moas, Greenpeace USA	Rite Aid: Still Making the Wrong Choice for Forests	“[Resolute Forest Products] is currently bad news for the largest remaining intact forest in North America, the Boreal. And that means bad news for the climate. . . .”	Greenpeace USA
6.	7/21/2015	Amy Moas, Greenpeace USA	US Pharmacy Giant Rite Aid is Destroying Canada's Boreal Forest	Resolute's “logging is also jeopardizing one of Earth's largest carbon sinks and putting our global climate at risk.”	Greenpeace Canada
7.	2/26/2015	Shane Moffatt, Greenpeace USA	Email to Midland Paper	“Greenpeace International has launched a petition urging Resolute CEO Richard Garneau to collaborate with Greenpeace to address these publically documented shortcomings, which are of enormous global significance. As you are aware, the Boreal Forest is a vast carbon storehouse . . . .”	n/a
8.	12/22/2014	Joanna Kerr, Greenpeace Canada	Website Publication: Who's Been Naughty And Who's Been Nice To The Planet This Year	“Without action to curb unsustainable practices like Resolute's, Canada is on the road to worsening climate change and betraying the amazing biodiversity we hold in trust for the world.”	Greenpeace Canada
9.	2/12/2014	Richard Brooks, Greenpeace Canada	Website Publication: The Guardian Tree:	“The Boreal Forest plays a critical role in mitigating global climate change and holds some of the highest quantities of terrestrial	Greenpeace Canada

	Date	Author	Description	Statements	Website
			Where art and the forest come together	carbon in the world an estimated 208 billion tonnes! That is why when it comes to protecting Canada's forests we cannot be silent. Therefore, when a company like Resolute Forest Products (the largest logging company in Canada) puts the health of the Boreal Forest at risk with its destructive logging practices, Greenpeace calls for people to come together and help defend the forest . . . ."	
10.	9/12/2013	Daniel Brindis, Greenpeace USA	Letter to Canon U.S.A., Inc.	"Intact forest areas, like those found in the Montagnes Blanches, play a critical role in mitigating global climate change with their immense carbon reservoirs and sinks that capture carbon from the atmosphere for hundreds of years . . . . Resolute products (including its Ecopaque paper) sourced from the Montagnes Blanches and other Endangered Forest areas threaten the forest's ecological integrity, iconic species and community well-being . . . ." (citations omitted)	n/a
11.	8/27/2013	Daniel Brindis, Greenpeace USA	Letter to The F.P. Horak Company	"Intact forest areas, like those found in the Montagnes Blanches, play a critical role in mitigating global climate change with their immense carbon reservoirs and sinks that capture carbon from the atmosphere for hundreds of years . . . . Resolute products (including its Ecopaque paper) sourced from the Montagnes Blanches and other	n/a
