

APPENDIX B**ADDITIONAL MISREPRESENTATIONS CONCERNING RESOLUTE’S PUTATIVE IMPACT ON THE WOODLAND CARIBOU**

	Date	Author	Description	Statements	Website
1.	Undated	Greenpeace USA	Website Publication: Boreal Forests	“[Resolute's] operations threaten iconic species such as the woodland caribou.”	Greenpeace Canada
2.	6/2017	Amy Moas, Greenpeace USA; Rolf Skar, Greenpeace USA; Daniel Brindis, Greenpeace USA	Appearance at Book Expo Convention in New York, NY	Distributed “Clearcutting Free Speech” report and other misleading materials accusing Resolute of threatening woodland caribou.	n/a
3.	05/17/2017	Amy Moas, Greenpeace USA	Publication: “Clearcutting Free Speech: How Resolute Forest Products is going to extremes to silence critics of its controversial logging practices”	“[E]ach time Resolute logs in intact forests and woodland caribou habitat, it is further jeopardizing the species’ chances of survival.” “The science is very clear: Resolute is harming a threatened species’ chances of survival by undermining the forest’s ability to support healthy and self-sustaining caribou populations. . . . Suggestions to the contrary are simply uninformed.”	Greenpeace USA, Greenpeace Canada, Greenpeace International
4.	12/16/2016	Amy Moas, Greenpeace USA Shane Moffatt	Letter to customers	“In the forests in which Resolute sources fiber . . . herds of caribou have been found to be experiencing levels of disturbance too high for their long term health and survival,	n/a

APPENDIX B**ADDITIONAL MISREPRESENTATIONS CONCERNING RESOLUTE'S PUTATIVE IMPACT ON THE WOODLAND CARIBOU**

	Date	Author	Description	Statements	Website
		Greenpeace Canada		as outlined by Canada's Department of the Environment. In particular, in the Montagnes Blanches Forest in Quebec, there are three caribou herds, and in the Caribou Forest in Ontario there is an additional herd where habitat disturbance, including some from Resolute's operations, is jeopardizing their survival."	
5.	4/19/2016	Amy Moas, Greenpeace USA, Shane Moffatt, Greenpeace Canada	Letter to Midland Paper	"[T]he Montagnes Blanches has been in the public spotlight for some time because of the ongoing loss of intact forests and decline of the endangered woodland caribou."	n/a
6.	3/23/2016	Amy Moas Greenpeace USA	Email to McGraw Hill	"By continuing to manage this area without science-based conservation measures, Resolute is actively contributing to the loss of intact forests and woodland caribou habitat."	n/a
7.	2/2016	Greenpeace Canada	Endangered Forests in the Balance: The impact of logging reaches new heights in the Montagnes Blanches Endangered Forest	"[I]n the ongoing absence of science-based conservation measures, products sourced from this area risk accelerating the decline of the threatened woodland caribou."	Greenpeace Canada, Greenpeace International, Greenpeace USA

APPENDIX B**ADDITIONAL MISREPRESENTATIONS CONCERNING RESOLUTE’S PUTATIVE IMPACT ON THE WOODLAND CARIBOU**

	Date	Author	Description	Statements	Website
8.	8/10/2015	Cristiane Mazzetti (Greenpeace Brazil)	Email to Grupo Folha (COMPUTER TRANSLATION)	“[The] unsustainable forest management practices of Resolute, [] jeopardize endangered animals like certain species of reindeer listed on the Canadian Species at Risk Act.”	n/a
9.	7/21/2015	Amy Moas, Greenpeace USA	Website Publication: Rite Aid: Still Making The Wrong Choice For Forests	“Resolute Forest Products, a company that is logging in some of the last ancient forests in Canada still undisturbed by industrial development. This type of logging threatens wildlife like the woodland caribou”	Greenpeace USA
10.	5/15/2015	Catharine Grant, Greenpeace Canada	Email to Wausau Paper (enclosing “Buyer beware” press release)	“Active logging in critical caribou habitat, conflicting with [Resolute's] emphasis on protecting forest biodiversity and endangered species[.]”	n/a
11.	5/13/2015	Richard George, Greenpeace UK	Letter to News Media UK	“Resolute is simply not meeting public expectations as far as intact forests, endangered species and Indigneous Peoples' rights are concerned.”	n/a
12.	4/15/2015	Daniel Brindis, Greenpeace USA	Website Publication: Rite Aid Making The Wrong Choice For Ancient Forests	“Resolute is logging in the last undisturbed ancient forests in Quebec and Ontario, some of which is [sic] threatened Woodland Caribou habitat.”	Greenpeace USA
13.	3/30/2015	Daniel Brindis, Greenpeace USA	Email to Quad Graphics	“[T]wo of Resolute's FSC certificates have been terminated and an additional two certificates have been suspended due to serious shortcomings related	n/a

				to . . . endangered species (caribou) conservation....”	
14.	2/2/2015	Pat Venditti, Greenpeace UK	Letter to DMG Media	“Resolute's unsustainable forestry practices . . . threaten endangered species such as woodland caribou (listed under the Canadian Species at Risk Act).”	n/a
15.	2/2/2015	Pat Venditti, Greenpeace UK	Letter to Northern and Shell	“Resolute's unsustainable forestry practices . . . threaten endangered species such as woodland caribou (listed under the Canadian Species at Risk Act).”	n/a
16.	2/2/2015	Pat Venditti, Greenpeace UK	Letter to Trinity Mirror, Plc.	“Resolute's unsustainable forestry practices . . . threaten endangered species such as woodland caribou (listed under the Canadian Species at Risk Act).”	n/a
17.	12/16/2014	Richard Brooks, Greenpeace Canada	Tweet	“Q: Which company is having one of the largest impacts on caribou herds featured in @cpaws report? A: Resolute”	n/a
18.	11/26/2014	Greenpeace Canada	Website Publication: Electronics giant Best Buy wasting Boreal Forest one flyer at a time: Greenpeace report	“The Greenpeace report, 'Better Buying in the Boreal,' reveals that Best Buy is sourcing this paper from controversial logging company Resolute Forest Products, who operates without the consent of impacted First Nations and to the detriment of critical caribou habitat, a threatened species in Canada.”	Greenpeace Canada

APPENDIX B**ADDITIONAL MISREPRESENTATIONS CONCERNING RESOLUTE’S PUTATIVE IMPACT ON THE WOODLAND CARIBOU**

	Date	Author	Description	Statements	Website
19.	11/26/2014	Amy Moas, Greenpeace USA	Website Publication: Best Buy Is Wasting Ancient Forests, One Flyer At A Time	“Best Buy is even sourcing this paper from controversial logging company Resolute Forest Products which is responsible for the destruction of vast swathes of Canada[’]s Boreal Forest, degrading critical caribou habitat and logging without the consent of impacted First Nations.”	Greenpeace USA
20.	11/26/2014	Shane Moffatt, Greenpeace Canada	Website Publication: Help Best Buy get out of ancient forests	“Best Buy is even sourcing this paper from controversial logging company Resolute Forest Products which is responsible for the destruction of vast swathes of Canada’s Boreal Forest, degrading critical caribou habitat and logging without the consent of impacted First Nations.”	Greenpeace Canada
21.	Nov. 2014	Shane Moffatt, Greenpeace Canada	Website Publication: Better Buying In The Boreal Forest	“Suspended sustainable forestry certificates, conflict with First Nations, imperiled woodland caribou ... have defined Resolute in recent years. By purchasing from Resolute without clear sustainability expectations, BEST BUY risks using priceless caribou habitat or fibre sourced without First Nations consent to make flyers and junk mail that quickly end up in the trash.”	Greenpeace Canada Greenpeace USA
22.	7/15/2014	John Sauven, Greenpeace UK	Email to The Guardian	“The company has a record of unsustainable and irresponsible operations in Canada's Boreal Forest, with logging practices threatening wildlife at risk such as the woodland caribou”	n/a

APPENDIX B**ADDITIONAL MISREPRESENTATIONS CONCERNING RESOLUTE’S PUTATIVE IMPACT ON THE WOODLAND CARIBOU**

	Date	Author	Description	Statements	Website
23.	May 2014	Greenpeace International	Website Publication: FSC AT RISK: Resolute Forest Management: FSC Must Do More To Protect Intact Forests, Species At Risk And Indigenous Rights In Canada	“Resolute’s management and logging activities have been found to fragment and degrade the intact forest areas of the region that woodland caribou rely on for their survival....”	Greenpeace International
24.	May 2014	Greenpeace International	Website Publication: FSC AT RISK: Resolute Forest Management: FSC Must Do More To Protect Intact Forests, Species At Risk And Indigenous Rights In Canada	“The threatened woodland caribou . . . are in decline across Canada as resource extraction severely disrupts their remaining habitat. . . . Three caribou herds whose ranges overlap with Resolute’s Montagnes Blanches operations are unlikely to survive beyond 50 years due to continuing habitat destruction.”	Greenpeace International
25.	May 2014	Greenpeace International	Website Publication: FSC AT RISK: Resolute Forest Management: FSC Must Do More To Protect Intact	“Caribou are in dramatic decline due to industrial pressure across Canada’s Boreal Forest, and yet Resolute continues to log in and source wood from some of the intact forests caribou rely on.”	Greenpeace International
