|----|-----------|---|---|--|---------|
| | | | in the Montagnes Blanches Endangered Forest | Forest. This means that more than 1.05 million hectares of IFLs have been logged or fragmented over the course of 13 years. Analysis of the four main FMUs overlapping the Montagnes Blanches, where most wood volumes are allocated (FMUs 24-51, 24-52, 25-51, and 27-51), reveals an even greater amount of intact forest has been degraded, totalling more than 1.2 million hectares (3 million acres), equivalent to ten times the area of new York city." | |
| 5. | 5/15/2015 | Catharine Grant, Greenpeace Canada | Email to Wausau Paper | "[W]e are very concerned with [Resolute's] continued expansion of logging into remote areas of Endangered Forests in Ontario and Quebec[.]" | N/a |
| 6. | 7/15/2014 | John Sauven (Greenpeace UK) | Email to The Guardian | "Several of the areas in which the company operates are considered Endangered Forests of extraordinarily high ecological value." | N/a |
| 7. | 4/4/2014 | Stephanie Goodwin, Greenpeace Canada | Letter to Flambeau River Papers, enclosing "Forest Solutions - An insider's look at | "Resolute operates in and sources from some of Canada's last remaining 'Endangered Forests' including the spectacular Montagnes Blanches and 'Endangered Forests' in Quebec and | N/a |
